Planetary Interactions

NATAL position Vs. *TRANSITING* position of planets

Compare the Planets' current position from Moon's positions in one's natal chart Vs. Lagna's positions in one's natal chart

Observe how the transiting planet interacts & influence with other natal planets

Arsha Jyotish
Ancient Wisdom

House Influence

NATAL position Vs. *TRANSITING* position

Observe influence of transiting planet on the 12 houses.

As planet move through different houses, it affects specific aspects of life as per condition of those houses

i.e . a planet transiting the 10th house can bring changes in career or change in status

Arsha Jyotish
Ancient Wisdom

Aspect (Drishti) Effects

Drishti of TRANSITING position of planets

Analyze the aspects (drishti) on other 12 houses

Analyze the aspects on other planets

Whether the influence will be positive or negative depends on the planet's nature and dignity during transit

Benefic Vs. Malefic Effects

The effects of *Gochara* depends on nature and condition of planet
Benefic (Jupiter or Venus) Or Malefic (Saturn or Mars)

Favorable transit can bring prosperity and growth

Unfavorable transits can bring delays or hardships

Jupiter Transit

As a major benefic, Jupiter's transit over key houses or planets can enhance the results of Yogas.

A strong Jupiter transit can boost the positive effects of Yogas.

Arsha Jyotish
Ancient Wisdom

Saturn's Transit

Parashara gives significant importance to Saturn's transit and its ability to suppress or delay the effects of positive Yogas.

For instance,

if a strong Raj Yoga is present, but Saturn is transiting unfavorable houses, it may delay or block the full realization of the Yoga's benefits

Arsha Jyotish
Ancient Wisdom

Dasha and Gochara

Interpret transit along with current dasha system to understand when the transit will manifest its full impact

Parashara emphasizes that

‘while *Yogas* may be present in the chart, they will only become active during the appropriate *Dasha* and when the planets involved in the *Yoga* are favorably transited.

Transits act as "triggers" for *Yogas*, and timing is crucial

Mantreswara (Phala Deepika)

offers detailed insights into the effects of transits on Yogas

Activation of Yogas

He explains that Yogas, no matter how strong, require favorable transits to deliver their full results.

I.e. Dhana Yogas will be activated when Jupiter or Venus transit the 2nd or 11th houses

Mitigating Malefic Yogas

Negative influences of *Kemadruma Yoga* can be reduced when benefic planets like Jupiter or Venus are transiting favorable houses or aspecting the afflicted planets.

Saturn's Transit

Parashara gives significant importance to Saturn's transit and its ability to suppress or delay the effects of positive Yogas.

For instance,

if a strong Raj Yoga is present, but Saturn is transiting unfavorable houses, it may delay or block the full realization of the Yoga's benefits

Dasha and Gochara

Interpret transit along with current dasha system to understand when the transit will manifest its full impact

Parashara emphasizes that

‘while *Yogas* may be present in the chart, they will only become active during the appropriate *Dasha* and when the planets involved in the *Yoga* are favorably transited.

Transits act as "triggers" for *Yogas*, and timing is crucial

Mantreswara (Phala Deepika)

offers detailed insights into the effects of transits on Yogas

Activation of Yogas

He explains that Yogas, no matter how strong, require favorable transits to deliver their full results.

I.e. Dhana Yogas will be activated when Jupiter or Venus transit the 2nd or 11th houses

Mitigating Malefic Yogas

Negative influences of *Kemadruma Yoga* can be reduced when benefic planets like Jupiter or Venus are transiting favorable houses or aspecting the afflicted planets.

Ayanamsa

The angular difference between the tropical and sidereal zodiacs, correcting for the Earth's axial precession

It aligns planetary positions with fixed stars, using the *Lahiri Ayanamsa*

Ayanamsa ensures precise calculations for predictions, and sidereal charts, along with divisional charts (Vargas)

On a particular day, say Sun is positioned at 15° Aries due to the Ayanamsa adjustment, in Vedic astrology, the Sun might be at 21° Pisces

Ayanamsa corrects for the shift in the earth's axis over thousands of years, ensuring the planets are aligned with the original constellations

Sidereal Chart Analysis

Based on the sidereal zodiac, it adjusts planet's position to reflect true signs and constellations

It emphasizes on accurate house rulerships, sign positions, and cosmic alignments, differing from the tropical system (*used in Western Astrology*)

Example:

In a Sidereal (Vedic) chart, someone may have their **Moon in Taurus** (*Swa moon, more stable and practical emotional nature*)

In the tropical chart, the same person can have their **Moon in Gemini** (*More communicative and versatile emotional outlook*).

Primary Points of Emphasis

Focus on events affecting the Sun, Moon, and Ascendant

These hold great significance

With Ascendant and Moon, Ascendant ruler (Lagna lord) and the current Dasha lord are crucial

Transits to these points can affect reputation, health, and mental state
